

CLASS 11TH BIOLOGY - SECTION B (ZOOLOGY)

ANNUAL BOARD PAPER

Series: 11thARNKD(W/Z) JKLUT-25-1211-A Time: 1.5 Hours

Max. Marks: 35 Marks

Note: Attempt any 30 Marks out of 35 Marks. | Draw neat diagrams wherever necessary.

SECTION A: OBJECTIVE TYPE QUESTIONS

1 Mark each

- Q1. The Protein synthesizing granules found in soma of a neuron are called _____.
- Q2. Which of the following hormone is released by Hypothalamus?
(A) GH (B) MSH (C) FSH and LH (D) GnRH
- Q3. Kazinag National Park was established primarily to protect the following endangered species:
(A) Nilgai (B) Markhor (C) Snow leopard (D) Hangul deer
- Q4. 'G₀' stage is followed by 'S phase'. (State True or False)
- Q5. 'Sea walnuts' are representative members of:
(A) Plantae (B) Cnidaria (C) Ctenophora (D) Echinodermata

SECTION B: VERY SHORT ANSWER TYPE QUESTIONS

2 Marks each

- Q6. Draw a neat diagrammatic sketch of the Female Reproductive System of a Frog. Label its major parts.
- Q7. What are Nucleic acids? Write down their two primary physiological functions in living organisms.
- Q8. Give any two fundamental structural differences between Prokaryotic and Eukaryotic cells.
- Q9. What are Semi-autonomous organelles in a cell? Give a brief account of any one such organelle you know.
- Q10. What is Rh factor? Why is it considered of critical importance during blood transfusion and pregnancy?

SECTION C: SHORT ANSWER TYPE QUESTIONS

3 Marks each

- Q11. Write down the salient features of Phylum Annelida. What is the role of Nephridia in these animals?
- Q12. Five Kingdom classification has classified Eukaryotic animals under Kingdom Animalia, which is further divided into Chordata and Non-chordata. Give a Flowchart (Sketch) of classification of Phylum Chordata up to class level. Also show where man is placed in this classification.
- Q13. What are Enzymes? Explain the major physical and catalytic properties of Enzymes.
- Q14. What do you know about cytoskeleton? What is centriole and write its function in animal cells?

- Q15.** Write a short note on the Transportation of gases (Oxygen and Carbon dioxide) in human beings.

SECTION D: LONG ANSWER TYPE QUESTIONS

5 Marks

- Q16.** Explain the structure and function of the human Nephron. How does it contribute to urine formation?

--- OR ---

Explain the organization of the human skeleton. Distinguish between Axial and Appendicular skeleton with suitable examples.
