

JKBOSE CLASS 11TH - INFORMATION PRACTICES

Series: 11thARNKD(W/Z) JKLUT-2025 | Code: 1215-B

Time: 3 Hours

Max Marks: 70 Marks

SPECIAL NOTE: Attempt any 60 Marks out of 70 Marks (Total Questions: 31)**SECTION - A : MULTIPLE CHOICE QUESTIONS**

(1 Mark Each)

1. Barcode is an input device. (State True or False) [1 Mark]
2. CU stands for Control Unit. (State True or False) [1 Mark]
3. NOT gate has only one input. (State True or False) [1 Mark]
4. Linux is not an operating system. (State True or False) [1 Mark]
5. Name any one high level computer language: [1 Mark]
6. Define an algorithm. [1 Mark]
7. Define a variable in Python. [1 Mark]
8. Define a keyword in Python. [1 Mark]
9. Define a constant in Python. [1 Mark]
10. IoT stands for (select most appropriate answer): [1 Mark]
 - (a) Internet on time
 - (b) Internet of things
 - (c) input output terminal
 - (d) None of these

SECTION - B : VERY SHORT ANSWER QUESTIONS

(2 Marks Each)

11. Explain any two computer memory units. [2 Marks]
12. Explain Primary memory (RAM & ROM). [2 Marks]
13. What is an application software? Give examples. [2 Marks]
14. Explain briefly multiprocessing Operating system. [2 Marks]
15. Define hardware and firmware. [2 Marks]
16. Write any two key differences between 32-bit and 64-bit Operating systems. [2 Marks]
17. Explain briefly logical operators in Python. [2 Marks]
18. Explain the 'for' loop in Python with an example. [2 Marks]
19. What is indentation in Python and why is it important? [2 Marks]

SECTION - C : SHORT ANSWER QUESTIONS

(3 Marks Each)

20. Explain AND gate with the help of a Truth Table having 3 inputs (A, B, C). [3 Marks]
21. Write a concise note on Information Technology (IT) and its scope. [3 Marks]
22. Explain the primary functions of an Operating System. [3 Marks]
23. Write a brief overview of the history and evolution of programming languages. [3 Marks]
24. Explain any two control flow statements of Python with suitable syntax and examples. [3 Marks]
25. Write a program in Python to find whether a given input number is even or odd. [3 Marks]
26. Define Artificial Intelligence (AI) and enumerate its key advantages in modern society. [3 Marks]

27. What do you mean by Virtual Reality (VR)? Explain its applications.

[3 Marks]

28. Explain different types of cloud computing services (IaaS, PaaS, SaaS).

[3 Marks]

SECTION - D : LONG ANSWER QUESTIONS

(5 Marks Each)

29. Explain in detail CPU, ALU (Arithmetic Logic Unit) and CU (Control Unit) of a computer system.

[5 Marks]

--- OR ---

Convert the decimal numbers 234₁₀ and 101₁₀ to their binary equivalent numbers showing full calculation steps.

30. Discuss the basic fundamental elements of a programming language in detail.

[5 Marks]

--- OR ---

Discuss different categories of computer programming languages (Machine, Assembly, High-level) in detail.

31. Discuss different types of operators available in Python (Arithmetic, Relational, Assignment, Logical) with code examples.

[5 Marks]

--- OR ---

Write a complete Python program to calculate the area of a triangle and the area of a rectangle based on user inputs.
